

State of Arizona Tribal Liaison Group
Economic Development & Infrastructure Team
FACT SHEET

Background

Executive Order 2006-14: *Consultation and Cooperation with Arizona Tribes* was signed by Governor Janet Napolitano during the 12th Governor and Tribal Leader Summit held on September 14, 2006. The order requires all executive agencies to implement a tribal consultation policy and identify staff to assume implementation responsibility.

The Tribal Liaisons are organized into four unofficial bodies to efficiently identify and solve issues, which are: Health Services, Public Safety, Natural Resources, Economic Development and Infrastructure.

Purpose

The Economic Development & Infrastructure Team (EDIT) strives to progressively influence and advance state-to-tribal government relationships through shared information/networking and coordinated collaboration among group participants and other groups/agencies.

Within EDIT, there are eight Tribal Consultation Policies in place and eleven designated tribal liaisons. Four of those work full-time on Tribal issues related to economic development and infrastructure.
